## BIBLE CLUBS WILL BEGIN WORK AT "Y"

Boys' Bible Classes Will Start Work and Meetings Will Be Held in Week of October 25.

The boys' Bible clubs at the Young Men's Christian association will have their opening meetings the week beginning October twenty-fifth. Tuesday night of that week the high school boys will have their first meeting. A supper will be served at six-thirty, and after the supper they will have the Bible study in different groups.

On Thursday afternoon, October twenty-fifth, at four thirty, all the graded school boys will have a rally and begin their Bible study. Great interest is being taken in these clubs, as they will be very instructive and quite a lot of pleasure will be gotten out of the meetings.

These clubs will use a graded system of Bible study divided up into the following divisions: first year, they will study "The Life of Christ"; second year, "Men Who Dared"; third year, "Travels of Paul"; and the fourth year a course of study that will be adapted for the work of boys and high school students over a certain age. At the close of the year examinations will be given in the different courses and diplomas will be awarded to those who pass the test. Prizes will be awarded to those who have an attendance record of seventy-five per cent or better.

These Bible classes will not be given over entirely to the study of the Bible, as there will be socials and other activities in connection with the meetings. Each club will have different games and tournaments and games will be arranged between the different clubs.

## NEGROES TO PROTEST ON PICTURE FRIDAY

Committee of Colored Citizens to Voice Arguments That "The Birth of a Nation" Should Be Barred

Great interest is being taken in the outcome of a protest that will be made by a committee of colored citizens, at least three in number, before the city commission at their adjourned meeting Friday afternoon, against allowing the motion picture, "The Birth of a Nation," to exhibit in this city. Eugene Scott last week appeared before Mayor Fathers asking that the council give audience to the committee and allow them to make their protest in arguments that the motion picture excites race hatred and is an injustice to the negro race.

## DR. ROTH TO SPEAK AT LUTHERAN CHURCH

One of the Founders of the English Lutheran Church in America Will Give Morning Sermon.

On next Sunday at eleven o'clock, the Rev. H. W. Roth of Greenville, Pa., will preach the morning sermon at the St. Peter's English Lutheran church, the services to open at eleven o'clock. Dr. Roth is one of the fathers in the Lutheran church in the United States, and is one of the men who founded the General Council in 1867. With Drs. Passavant and Weidner, he founded the Chicago Seminary in the year of 1891 and has served as director and treasurer of the Chicago institution from its beginning. He was one of the first professors of the seminary as well.

At present Dr. Roth is the director of the Pittsburgh hospital and was formerly the director of the institution of Protestant Deaconesses. He was for many years president of Thiel college. It is anticipated that a large number besides Lutheran church members will avail themselves of the opportunity of hearing Dr. Roth.

## LUTHER SUPERVISES FARMERS' INSTITUTES

Succeeds C. P. Norgord in Agricultural Extension Work Through Wisconsin.

[BY ASSOCIATED PRESS.]  
Madison, Wis., Oct. 14.—In the appointment of E. L. Luther to succeed Commissioner C. P. Norgord as superintendent of farmers' institutes, another step has been made in the close correlation of the agricultural extension work of the state. Hereafter Mr. Luther will not only supervise the work of the agricultural representatives in their respective counties, but will also have field charge of farmers' institutes which have been put over on a twelve months basis. This action will do away with any possibility of duplication and will materially reduce the cost of supervision.

Mr. Luther was the first agricultural representative appointed in Wisconsin, having served Oneida county in that capacity before being appointed state leader of the movement. He is familiar with agricultural conditions throughout the state and is especially well acquainted with the needs of farming under pioneer conditions.

### OBITUARY

Frank E. Zimmerman.  
Frank E. Zimmerman passed away at two o'clock this morning at his home, 524 South Franklin street, after an illness of two weeks, although a patient suffered for a number of years. He was born in Berlin, Germany, Feb. 10, 1884, and came to this country at the age of thirteen and spent the remainder of his life in the city, working at his trade as a cigarmaker. He was a member of the Cigarmakers' Union.

He leaves to mourn his loss, his mother, Mrs. M. Zimmerman, and one sister, Freda M. Zimmerman, of this city, and one brother, Max E. Zimmerman of Winona, Minn.

Funeral services will be held Saturday morning from St. Mary's church, at nine o'clock.

## HOG DEMAND HOLDS IN TRADING TODAY

Prices Are Firm at Wednesday's Average or Five Cents Higher—Cattle Market Wavers.

[SPECIAL TO THE GAZETTE]  
Chicago, Oct. 14.—Hogs were in good demand at Wednesday's range of prices and even a shade higher, at the opening of trade this morning. Receipts at 16,000 met with active demand. Cattle market was weak with a light run estimated at 5,000. Sheep tradewas slow. Quotations follows:

Cattle—Receipts, 5,000; market, weak; natives, beef steers, \$5.00@10.40; western steers, \$5.00@8.50; cows and heifers, \$2.80@8.25; calves, \$7.75@11.50.

Hogs—Receipts, 16,000; market, firm and unchanged, 5c above yesterday's average; light, 8.00@8.80; mixed, 7.00@8.95; heavy, 7.00@8.90; rough, 7.00@8.10; pigs, 5.00@7.50; bulk of sales, 8.20@8.75.

Sheep—Receipts, 11,000; market, slow, wethers, 6.00@7.00; lambs, native, 6.75@8.85.

Butter—Unchanged, 32¢ cases. Eggs—Unchanged, 35¢ cases. Potatoes—Unchanged, 35¢ cases. Poultry—Alive: Higher; fowls 13¢, springs 14¢.

Wheat—Dec: Opening 1.06½; high 1.09½; low 1.04½; closing 1.07½. May: Opening 1.07½; high 1.10½; low 1.07½; closing 1.07½.

Corn—Dec: Opening 58½; high 59½; low 57½; closing 58½. May: Opening 60½; high 61½; low 60½; closing 60½.

Oats—Dec: Opening 38; high 38½; low 37½; closing 38½. May: Opening 39½; high 40½; low 39½; closing 39½.

Cash Market.  
Wheat—No. 2 red 1.16½@1.17; No. 3 red 1.10½@1.15; No. 2 hard 1.15½@1.16½; No. 3 hard 1.10@1.13.  
Corn—No. 2 yellow nominal; No. 4 white 63½@64.

Oats—No. 3 white 35½@37½; standard 39@40@7.50.  
Clover—\$10@19.  
Pork—\$15.00.  
Lard—\$9.65.  
Ribs—\$8.75@10.35.  
Rye—No. 2 1.01.  
Barley—\$2@60.

WEDNESDAY'S MARKET.  
Chicago, Oct. 14.—After a slow start yesterday's hog market closed strong and the general average stood highest since Sept. 23, 1914.

With over 50,000 cattle in three days, the largest arrivals of the year, it is not surprising that yesterday's market was topheavy. Plenty of sales were 50c below a week ago.

Average price of hogs at Chicago was \$6.46 against \$6.36 Tuesday, \$5 a week ago, \$7.64 a year ago, \$3.29 two years ago and \$9.01 three years ago.

Bear Raid Unsuccessful.  
Big packers endeavored to buy hogs 10c lower yesterday, but the market stood strong at Monday's best prices, the Armour and Swift droves coeting \$6.33. Butchers, 225@276 lbs. reached \$8.90. Receipts were as expected and quality poor. Quotations: Bulk of natives and ship, \$8.15@8.75.

Heavy butchers and ship, 8.55@8.90. Light butchers, 190@230 lbs. 8.70@8.90.

## ELGIN BUTTER PRICE IS TWENTY-EIGHT CENTS

[BY ASSOCIATED PRESS.]  
Elgin, Ill., Oct. 9.—Butter higher; 167 tubs sold at 28c.

## ENEMIES OF ALLIES WOULD KILL SCHWAB

Charles Schwab, head of the United States Steel Corporation, is almost daily in receipt of threats of death from German sympathizers. So persistent have these threats been that Schwab has been compelled to employ a bodyguard. Many other manufacturers whose products are purchased by the allies have been compelled to guard themselves and their homes.

Pathetic.  
Another pathetic little feature of everyday life is the way a stout woman verging on middle age will read the directions for making the angles trim and shapely, to meet the demands of the short skirt vogue, and laboriously but confidently go through all the prescribed exercises.—Columbus (O.) Journal.

what Ex-President. Taft would have done. Some women get old eyes we know it—or rather before we get on to it.

Forces to Be Destroyed.  
The forces of nature we must endeavor to avoid. Working blindly as they do we can do nothing to overcome them. At most we can avoid their destructive influence and alleviate the suffering they give rise to. But the forces that are thrust out by ourselves, that spring from our own minds, must be controlled and overcome. They are primitive. They are brutal. They are animal forces. Against these we must direct our energies.

Daily Thought.  
The calm or disturbance of our mind does not depend so much on what we regard as the more important things of life as in a judicious arrangement of the little things of daily occurrence. —La Rochefoucauld.

### ALUMNI GAME HELPS HIGHS TO DISCOVER POINTS OF WEAKNESS

Contest Between Old Players and Regular Team Yesterday Shows Room for Improvement.

Playing a rushing game, full of pep and snap, and taking advantage of mistakes of the high school football team, an aggregation of alumni players, bolstered up with several members of the reserve squad of the blue, defeated the school boys, 21 to 13 yesterday afternoon at the fair grounds. The game was arranged by the alumni to determine just where the weak spots of the high eleven lie and to give them a practice game in preparation for the remaining tussles on their schedule.

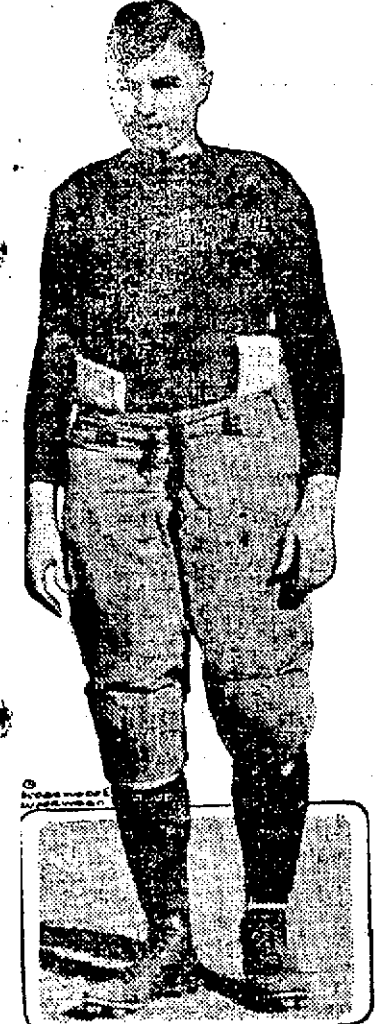

The game demonstrated a long list of defects which must be remedied at once if the team is going to have any success on the gridiron this season. Although the alumni were what might be termed a shiftable lot, due to their absence of the game for several years, nevertheless they outgeneraled the school boys at nearly every angle and as a whole "got the jump" in every scrimmage, both defense and offense.

A criterion of the high backfield would mention the rugged lineup of the backs, their designating the side of the line on which the play was to mass by their positions following the quarterback's signal, and in their anxiousness to be on their feet, they must improve on the manner he holds the ball. All through the game yesterday he carried it as one would a long leaf of dry bread. He and Lee, fullback, and Cronin at left half, must hit the line lower on their line plunges. The halves have a tendency to cut in too short on their sweeping runs which must be done away with. On the short runs, however, they picked the holes well.

Keber at quarterback should reserve his carrying the ball until the last two quarters of each half or, when after a long period of inactivity, and, within the opponents' five yard line, and then only on a straight line buck. He is too small for circling and is more or less slow in getting away with the backs. The manner in which he dresses is also much of a handicap. His judgment is good, however, and yesterday he showed fairly good generalship in attempting to outwit his older opponents.

The high line needs much improvement. Despite the entreaties and advice of Coach Dutcher, it continued to soar in the air. They need to get down and stay down when charging and rise only when they are under him backward and put him out of commission while the called play is being

### TAFT MAY PLAY IN YALE-HARVARD GAME

Charlie Taft.

Charlie Taft is making good, not because he is the son of his famous father, the former president, but by reason of his own merits. As an all-around athlete he has few equals in Yale. He has almost clinched a position as back on the Yale football team, and it is considered likely that he will play in the Yale-Harvard game.

executed. Falter and McCullough at tackle are heavy with football beef and should develop, but yesterday they were utterly unable to do much. Kennedy took McCullough's place, but like the rest was always up. The guards, McWay and Marshall, were continually in the air and were nearly always up when the opponent guards charged, forcing them back into the backs, massed for a cross-buck or a straight plunge and many times upsetting the backfield on end circling runs. Ford and Kakuske played good games at center and are good on blocking, but there is much room for improvement in both.

Viney and Mooney are excellent ends, but the old trick of waving them in and boxing them also, fooled them yesterday. The alumni was not forced to punt and the ability of the ends to get down the field under the ball was not shown, but as far as speed is concerned, it might be said that they can get down. Then open field tackling must feature with their speed if they are to be good ends.

For the alumni Sherman and Connell were at the halves with French at full and Jimmy Stewart at quarter. Cannon was at center, backed by Jones and Leslie Stewart at the guards. Sutherland and Taylor played the tackles and Lee and Kelly the ends. The alumni have promised to play the high school boys several practice games during the season.

### Sport Snap Shots

MORRIS MILLER

During the coming winter Manager Griffith will make a strenuous effort to trade both Ray Morgan and Joe Boehling. If the trade is possible they may be allowed to go to some other major league club at the waiver price. For the head of the Griffins, the highly talented pitcher, that neither of the players mentioned will be of any service to the team next season.

Morgan had a brilliant future when Griffith took hold at Washington and at once established him at second base. He hit well that season, and was picked by many to make one of the best second basemen in the league. In those days Ray was attending strictly to business and least one of the automobiles in the time he got his own car, however, his work fell off, and this season his absence for several months undoubtedly is responsible for the many defeats the Nationals suffered at that time and probably prevented the team from finishing as good as third in the race.

That Fred Clarke, the late manager of the Pittsburgh club, was highly esteemed by players, managers and the public in general, is well known. On the night of his farewell dinner, a table was filled with telegrams and letters praising Clarke and his administrative in baseball and expressing regret that he was leaving the game. Clarke was not only a great ball player and manager, but an ideal character. He always was pleasant, yet a rebel on the field, and indeed a hard blow to the sport that Clarke has left. His successor will not be found in some years so far as the game is concerned, though there are perhaps others just as capable to handle a ball team as he was.

Notwithstanding the fact that McBride has been playing for eight seasons in Washington, he is still one of the best shortstops in the league and makes up for his battling weakness by his ability to field and the judgment he displays in conducting his game. But those who call for some shortstop other than McBride probably will be surprised that there is at least one in the American league which would welcome him and give up its shortstop and some cash to obtain him. That club is Chicago. Buck Weaver could be obtained, a trade for McBride and the Washington club could get a neat sum in addition, but there is no danger of such a deal being made, for Griffith, like all other managers who have been in charge of the Washington team since McBride has been a member of it, realize his value and has no intention of parting with him.

Grover Cleveland Alexander may be the "Great" but Walter Johnson is still the "King." Alex is a great pitcher and no mistake, but the Idaho wizard has it on him from every angle. Jack Coombs, former star moundman of the Philadelphia Athletics, who won three games from the Chicago Cubs at the 1910 world's series, had tipped Jack McInnis and Jack Barry, former teammates, to the fact that, when they saw Alexander in action in the present series, they would agree that he was head and shoulders a better performer than the Washington star. Coombs had seen Alex pitch a number of times this season and pronounced him the wonder of them all. McInnis and Barry, however, can't agree with the Iron Men. They insist that Johnson reigns supreme.

The famous championship diamond belt presented to John L. Sullivan by admiring friends in 1887, and later left by him in Chicago as security for four thousand dollar loan, is again in the possession of the veteran heavyweight pugilist. Sullivan redeemed it from a jewelry firm, paying \$3,500. The celebrated trophy is made up of 350 diamonds and fourteen pounds of gold. The former champion regarded the belt as his most cherished possession until shortly after he was defeated by Corbett in New Orleans in 1892.

Free distribution at the GAZETTE beautifully picture the resorts of Michigan.

### HOME RUN DRIVES WIN SERIES FOR BOSTON SOX, 5-4

Take Four Straight From Phillies.—Homers By Lewis and Hooper.—Turn the Tide of Runs.

Bill Carrigan and his clan of Boston Red Sox are today baseball champions of the world and once again the world's title went back to the American league, as Boston beat the Phillies yesterday by the score of 5 to 4. It is a coincidence that every series between the major league teams was won by the American league clubs by the count of four to one games.

The Red Sox won the climax title through heavy clouting, as Hooper took advantage of the two home runs and slammed out two home runs, and Duffy Lewis, the hero of the series, obtained one four-ply wallop, while Fred Luderus was the only Moran man to make a circuit drive. The Phillies seemed to have the game sewed up in the early innings, as they lead by the score of 4 to 2 until the final two rounds, when the Sox made a splendid fight from behind and the home run drive brought them the championship.

Bad choice in pitchers lost the game for the Phillies. It was a best bet that Alexander would be started against the Sox in hopes of stemming the tide, but Moran decided to send Foster to the mound to oppose Foster. Both pitchers were hit hard, and Mayer so hard that he was yanked and Rixey, the erratic Phillie hurler, was sent in to finish the game. Rixey went well the eighth and the tide turned. Foster was bounced hard for the Red Sox always had one better in every department of the game than did the Phillies. The Boston hitters lead of the Phillies got the range of the short field fence, and beat a merry bombardment against the wall, which the Phillies were expecting to knock down in winning the life saving game. Cravath fell down woefully in batting, striking out twice in yesterday's game.

With the score 4 and 2 the eighth inning came. Gainer was safe on an infield hit and Duffy Lewis drove a homer to the bleachers that tied the count. It was Lewis' third home smash of the series. Rixey was kept on the job and this was a fatal mistake. In the ninth Foster fanned. Hooper made his second home run to the center field, breaking up the game and winning the title for the Sox. The Phillies were unable to touch Foster, who improved as the innings rolled by until he was invincible.

Foster gets credit as being the pitching hero of the series, as he won two games, winning the second and polishing off in the last game. Luck out some figure in the series, but in the main the Red Sox won because they played far better ball, could hit in the pinches, were fighters and were far better balanced. Duffy Lewis is the real hero of the "world series" for his way club has been the deciding factor in three games and his fielding has been sensational and perfect. The Red Sox pitchers used their brains far better than did the Phillies, who were Phillie hurlers tried to grove balls against Lewis with two strikes on him and no balls. The result was disastrous, for Lewis won games with the drives that followed. Gardner at third, supposed to be a weak link in the Boston infield, stood up under the fire and Barry saved one game by the greatest play of the series. Luderus outplayed Hoblitzel at first, the only position at which the Red Sox were outclassed. As to the outfielders the Boston Red Sox excelled by a wide margin, although Speaker fell down in batting.

The flag means the seventh for the American to five for the Nationals. Summary:

### THACKERAY'S NOVEL DONE IN FILM

Mrs. Fiske as "Becky Sharp" Seen at Myers Theatre in a Motion Picture Version of "Vanity Fair."

Mrs. Fiske was seen once again in her famous role of "Becky Sharp" in an Edison masterpiece, "Vanity Fair," released through the Kleine-Edison Feature service.

Mrs. Fiske's "Becky," because of its individuality and ingenuity of characterization, ranks with Edwin Forrest's "Leah," Joseph Jefferson's "Rip Van Winkle," and Richard Mansfield's "Cyrano de Bergerac."

All the incidents of the famous novel were vividly portrayed. The Battle of Waterloo, The Ball at Brussels, Queen's Crawley, etc. In all it was one of the most vivid and pretentious films shown here in many a day and was witnessed by a packed house, the biggest picture audience yet seen in Jansville.

Little to Worry About. Investigation by the geological survey of the erosion of drainage basins proves that the surface of the country is being worn away at the rate of about an inch in 760 years.

NOTICE TO SUBSCRIBERS. In sending change of address for your paper be sure to give the present address as well as the new one. This will insure better and quicker service.

The publication of Obituary Notices, Resolutions, Cards of Thanks, etc., can be made in the Janesville Gazette. Each notice is printed in full and is guaranteed to be read by all who receive the paper. The charge for such notices is \$1.00 per line for the first week and 50c for each subsequent week. The Janesville Gazette will accept no notice for publication unless it is accompanied by the cash for the same.

The Gazette does not knowingly accept false or fraudulent advertising or other advertising of an objectionable nature. Every advertiser in the Janesville Gazette is printed with full confidence in the character and reliability of the advertiser and the truth of the representations made. Readers of the Gazette will center a favor if they will promptly report any failure on the part of an advertiser to meet the conditions of publication contained in a Gazette advertisement.

## CAUSE FOR ANXIETY.

Democratic leaders are most anxious over what may happen at the next presidential election. They do not hesitate to say that they are seriously concerned about the treasury deficit which continues to increase in alarming proportions. Secretary McAdoo absolutely refuses to discuss any phase of the subject other than to say that there is no deficit to speak of, that he is not at all worried, and that the American people were never better able to pay increased taxes than right now. What the president thinks of the situation is not known. But certain of the democratic leaders say that it is evident that financial legislation will be the first subject with which congress has to deal. The treasury has run \$38,500,000 behind since July 1st, which is practically twice the shortage for the same period of last year, and several democratic leaders admit that ways must be found for increasing the revenues by at least \$100,000,000 a year, no easy problem for any party. The big deficit will be used by the Bryanites and the radicals as an objection to any steps looking to preparation for military defense, and until some method for stopping this fiscal leak can be found, they probably will be successful.

That even President Wilson realizes the grave danger which will menace the country and his re-election if the war ends without alteration of the tariff is indicated by his direction to the Secretary of Commerce and to the Federal Trade Commission to investigate and report on the advisability of enacting some character of "dumping clause," such as has been embodied in republican tariffs, before the European war ends and the customary industrial competition with this country can be resumed. But the president does not perceive, or is not willing to admit, that what is needed is something much more drastic than a "dumping clause." The latter would serve to prevent the exportation to this country of goods sold at less than cost of production, but the essential need is legislation which will prevent the importation of great quantities of goods sold at a reasonable profit but produced at a cost which cannot be met by American manufacturers as the result of a wholesale reduction of the prevailing scale of wages. The situation with regard to drugs and dyestuffs during this war is furnishing an object lesson which anyone not blinded by the democratic fetish of "tariff for revenue only" could not help but see. A great number of drugs, such as saccharine, aspartine, etc., and a great number of dyestuffs cannot now be produced because of interference with the trade with Germany. American chemists are entirely competent to produce these goods, and under normal conditions these industries would be rapidly built up here. But with a democratic administration in power the manufacturers dare not make the necessarily large investment for plant, expensive machinery, etc., with the prospect that the moment the war is over their plants will become worthless because the democratic congress refuses to impose the tariff necessary to prevent ruinous German competition.

## PRESIDENTIAL CHOICE.

Recently the Gazette received a circular asking its opinion on the question of presidential choice for the republican nomination and also what issues would be at stake from Public Opinion. In answer it was stated that Elihu Root was its first choice for second, and that the issues at stake would be the tariff and the question of progressivism would be settled at the polls by the return of the majority of the so-called progressives to the republican ranks and that in the west this organization was sadly shattered. This was the opinion expressed in a few words. In detail much more could be said. The story of the full dinner pail. The discussion of the throwing down the bars to the free importation of sugar which closed our Janesville factory and threw hundreds of men out of work during the winter months and took away hundreds of thousands of dollars from the sugar beet growers, could have been taken up in detail. Of course this country has been fortunate in the demand for its export goods. Its finished products. But when it comes to analyzing the importations you will find that they are mostly what might be termed "munitions of war." Against this line of exportation our friends, the pro-Tau-tonic people have urged the government to place a ban upon. Yet they have offered no substitute for their

place of sale. They have created no new market for the product of the mills, the mills or the various factories which give thousands of persons employment. The next congress must be republican to protect this country from a flood of foreign importation that will be sure to follow the ending of the war. The present seeming prosperity will end with the war and when it comes we must be prepared to face the tariff situation as never before. It is fortunate for the democratic administration the present European struggle came so that the real test of "free trade" was postponed, but the average working man is not to be fooled and the outcome of the canvass of the press of the United States by "Public Opinion" will be watched with interest.

## FIRE DRILLS.

Some days ago the Gazette made the suggestion that fire drills were the best method of preventing panics and loss of life in case of real necessity in our city schools. Unfortunately the impression was given that these drills were not given as fire drills. Since then the principals of several schools have taken pains to explain to the Gazette that fire drills at unknown moments are as much a part of the curriculum of the school as the daily lessons. That not only this is true but that the pupils during the warmer periods of the year have been able to make remarkably good time, leaving the building without their teachers having to take the thermometer over zero we call cold weather, even taking their garments for outdoor use they still show wonderful results. The only idea that was desired to be conveyed by the former editorial is that any school depending upon furnaces or any other method of heating is in danger of fire, and a fire scare at some time and the preparation of the pupils to meet such an emergency is an important function of their school life. It is with pleasure the idea is corrected that the Janesville school principals are not blind to the situation and are taking care of it by careful preparation against a possibility which, God trust, will never come.

The University of Wisconsin talked about an increase of four hundred students during each year of the next two when they asked for their last appropriation. Thus far the registration has fallen short of last year's. Will it be possible that the authorities lay the blame on the exposure of the slipshod methods of administration that were disclosed during the last legislature or will they really seek to plug up the rat holes and do business on a business basis?

Now the world series in the baseball world have been settled and Boston again claims the championship. We can settle down to the problem, who will be the eastern football champion and who the western. The question of who is the world's champion can never be decided until some different method of counting scores is evolved.

There seems to be no question of a doubt but the unanimous opinion of the taxpayers generally is that Governor Philipp must continue his work of retrenchment and education of the next legislature to his way of thinking by announcing himself as a candidate for re-election.

Janesville streets look mighty good considering the fact that the street department had to overcome a defective boiler at its oiling plant, wet weather and a rash of work at an important time during the past few months. Street Commissioner Goodman deserves credit for what has been accomplished.

The legislature is over. Its work is finished, but there are lot of members who still talk and discuss matters of legislation showing the earnestness with which they enacted laws or rejected bills they thought injurious to the state as a whole. It speaks well for representative government.

Dividing the city into two taxable districts for street improvements is one of the wisest moves the commissioners have undertaken thus far. It means results and better streets at a more nominal figure than has hitherto been possible under the old relic of the ward fund idea.

That Rock county is one of the best and richest counties in the state is evidenced by the fact that buyers of livestock and purchasers of farms look over Rock county before seeking further for bargains.

## SNAP SHOTS.

While the jury very seldom convicts the lady who kills her husband, the court proceedings and the attendant publicity always are a little annoying to those of refined minds and sensitive souls.

Every man should be bossed by a woman to the extent of changing his linen regularly.

The man who says a smart thing nearly always insists on repeating it in a louder tone of voice.

A good many people continue to labor under the hallucination that the spending of money constitutes a good time.

Every man follows a bellwether. Who is your bellwether?

"He is the sort of man," said Eph Wiley yesterday, referring to one of his aversions, "who stands in line in front of the box-office of a moving-picture show."

What is your favorite family argument? The favorite argument in the Gaston family is as to where the dog would sleep, if they had a dog.

Eph Wiley says Doc Quigley never received the meed of praise to which he was entitled. "Doc Quigley," Mr. Wiley says, "was a fine player on giving exhibitions of his skill."

We are always a little suspicious of the reformer who attempts to capitalize a hectic past.

Occasionally a lecturer loses his notes and is unable to proceed, but unfortunately, a singer never loses his music.

When an actor goes broke he is given a benefit. But when you go broke you will be expected to live on your more fortunate relatives.

When an agent approaches you upon the subject of buying stock, it is well to remember that buying stock is a side line with you, and that selling it is a business with him.

However, the man who says he is willing to leave his case to the people usually prefers to settle it in some other way.

In nearly every family the words "father" and "goal" are synonymous terms.

A shiftless woman is one who stops at the delicatessen store on the way home from her club and comes out carrying her husband's dinner in a pail.

A doctor holds that advertising is unethical unless he performed, or assisted at, the operation.

It is no reflection on mother to admit that the clothes she made for her boys did not fit as well as those displayed in the advertising sections of the magazines.

Tank Beverly disclaims any desire to be hogish. Tank says he has always been willing for some one else to reap the enormous profits to be gained by growing mushrooms in a cellar.

Every criminal case crumples up when the woman is located. But police officers the country over continue to work upon the theory that when necessary to find the man who did it.

It is possible to lean too far either way. Occasionally there is a woman who could better the hair nature gave her with a little of the commercial article to her own distinct advantage.

One way to avoid publicity and attention is to become a bridegroom.

## On the Spur of the Moment

ROY K. MOULTON

Having won a pennant, Pat Moran is about to read the details of his past, present and future life on the sport pages. Pat, being a modest guy, won't enjoy it any more than the public will.

If the Red Sox win the world's series they'll go to San Francisco to play a picked team in a special series. President Baker of the Phils has not yet decided whether or not the National leaguers will make the trip it successful.

When Pat Moran, baseball's latest miracle man who led the Phils to their first pennant in thirty-two years, had to make his own baseball when he was a boy, he was a textile worker when a kid and his daddy didn't think much of the national game, so young Patsy rolled balls out of yarn in order to play.

Some freak of destiny appears to have guided the Giants and the Yankees through the baseball year so that now, when the race is over, New York guided by figures alone may cherish one more than the other. The Giants may be the taller in the National, while the Yankees are riding in fifth place in the American, but for victories gained and losses bemoaned, there is no choice between them. Each team has same percentage of 434 and each has won 69 games and lost 82.

Roger Bresnahan, Cub boss, is planning a big shakeup in the Chicago squad. He says fans will hardly recognize the Cub squad next season. Bresnahan recently held a long conference with manager Charles Herzog of the Reds. It gave rise to the report that a trade, talked of earlier in the year, was to be carried through. This was the trading of Zimmerman, Archer and Fisher, to go to the Reds, for Groh, Wingo and Herzog. "There's no trade on now," said Bresnahan after the conference, "but we will make a lot of them this winter."

It is interesting to recall that in the thirty-two years of its unsuccessful fight for the flag the Philadel-

## TWO CHILDREN HAD CROUP.

The two children of J. W. Nix, merchant, Cleveland, Ga., had croup last winter. One was a boy of 6, the other a girl of 8 years. Mr. Nix writes: "Both got so choked up they could hardly breathe and couldn't talk. I gave them Foley's Honey and Tar and nothing else and it entirely cured them." This reliable medicine should be in every home for it gives immediate relief from colds, coughs and croup, heals raw inflamed throat and loosens phlegm. W. T. Sherer.

phia National league club finished in the second division only ten times in 1889 they were sixth, but there were twelve clubs in the race that year. Three managers, Wright, Steel and Doolin, were most successful, as each landed one of the three second places. Shettsline is the business manager of the team at present.

Eighteen home runs have been made in the last eleven world's series of sixty-four games. Frank Baker, formerly of the ex-champion Athletics, leads with three. Pat Dougherty, who played with the Red Sox in the 1903 series and with the White Sox in 1905, has two to his credit, so has Manager Fred Clarke of the Pittsburgh team, registered in 1903 and 1909. Those who have made single circuit clouts are Jimmy Sebring of the 1903 Pirates, Danny Murphy with the Athletics, Larry Doyle and Fred Merkle of the Giants, Wally Schang and Rube Oldring of the Athletics, Davy Jones and Sam Crawford of the Detroit Joe Rinker of the Cubs, and Larry Gardner of the Red Sox, while Hank Gowdy joined the select few last year by slamming out a home run off Bush against the Athletics.

## JANESVILLE BASEBALL FANS TO SEE EDGERTON GAME

Friday afternoon the Janesville baseball fans will be afforded an opportunity of witnessing a tight game between the Edgerton team and the crack Lakeland Giants of Chicago, at Edgerton. The game is an advancement in that Billy Sullivan, catcher for the championship Millers and former backstop for the White Sox in their winning days, will catch for the Edgerton team. Billy has many friends in Rock county as he started his baseball career in Edgerton and Fort Atkinson. Jim Scott, the pitcher who stopped the Cubs, will hurl for Edgerton against the Giants.

Mrs. A. D. Frink is spending a week with her daughter, Mrs. G. L. Walters of Albion.

Paul Owen, Roy Conry, Peter Chritton and Ben Vincent were business callers in Janesville Wednesday.

## SON FILES PROTEST TO MOTHER'S WILL

F. R. Baldwin Charges Undue Influence Was Used by His Sister in Securing Testament.

Objections to the probate of the will of the late Esther J. Baldwin of the town of Harmony have been filed in the probate court by her son, F. R. Baldwin of this city, in which it is charged that the deceased was not in full mental condition at the time the will was drawn and that undue influence was exerted over her by her daughter, Flora Skinner.

Following the filing of a petition for administration by the son, F. R. Baldwin, a will was produced and filed by Mrs. Skinner, through her attorney, J. M. McGowan. The son has now entered a protest which will be given a hearing by Judge Fifield within the next few weeks.

Testimony was taken this afternoon before Judge Fifield in the matter of the administration of the estate of the late Esther J. Baldwin, late of Edgerton. Joseph Fisher, the general administrator, was represented by Attorney John L. Fisher and Charles E. Pierson. Creditors were represented by Attorneys L. G. Gellin, G. W. Blanchard and Paul N. Grubb, all of Edgerton. F. C. Burpee is guardian ad litem for the insane wife of the deceased Edgerton.

## Y. M. C. A. GROUPS HOLD BANQUET

Milton and Milton Junction "Y" Groups Held Combined Banquet in Milton College Gymnasium—Large Attendance.

(SPECIAL TO THE GAZETTE.)

Milton, Oct. 14.—The county Y. M. C. A. groups of Milton and of Milton Junction held their opening banquet together last night in the college gym at Milton. About thirty people present, eighty of them being boys from three groups of Milton and three groups of Milton Junction. The banquet was a talk from one member of each group and an address from Donald Brown, boys' secretary at Beloit. Much enthusiasm was shown at the meeting, which was held at 8 o'clock. The Y. M. C. A. work at Milton and Milton Junction. The meeting last night was the largest local community gathering that has ever been held in the county.

## "SOLD" IN PICTURES WAS WELL PRESENTED

Pauline Frederick Seen in Excellent Picture at Apollo.

"Sold" with Pauline Frederick played an astonishingly human picture in the Paramount Program at the Apollo yesterday.

"Sold" emphasizes that a striking story can be told strikingly in pictures, and that melodrama when put on a high screen is a most interesting and entertaining thing. The picture that puts the punch in the picture is the high-light in the domestic experience of the man and woman who love each other. The picture is a story of a body there falls somewhere a high-keyed bit of sensationalism that if read about in books might be looked at skeptically.

Miss Frederick is a pleasing screen actress and the whole picture was exceedingly well handled. The large audience yesterday seemed to appreciate it immensely.

## HARD TIME PARTY AT RAUCH RESIDENCE

A hard time party was given last night for Miss Louisa Rauch, daughter of Mr. and Mrs. William Rauch, 612 South High street, the occasion being her seventeenth birthday. Those present were the Misses Louisa and Margaret Rauch, Clara Salling, Maria Rogers, Helen Zahn, Eva Peske, Elsie Rehn, Edna Rossmann, Mary Mah, Thekla Lucke, Esther Pufahl, Madchen Kerzman and Mrs. Miller and her daughter Edith of Milwaukee were also present. A three course dinner was served at a late hour.

## OTTO FELDMAN STILL HELD AT COUNTY JAIL

Otto Feldman of Footville, is still being held at the Rock county jail as the Chicago warrant was received by Sheriff Chamberlain yesterday. A Chicago police agent is expected to arrive shortly with a warrant to take Feldman back to Chicago to answer to the charge of stealing a motorcycle. George Jackson was released at the county jail last evening to await his preliminary examination before the municipal court on Oct. 22nd.

## DEATH TAKES CLERK OF SUPREME COURT

Clarence Kellogg, Aged 71, Dies at Madison Home This Morning, Two Weeks After Wife's Demise.

(BY ASSOCIATED PRESS.)

Madison, Oct. 14.—Clarence Kellogg, aged 71 years, since 1878 clerk of the supreme court, died at his home here this morning after two days' illness. His wife died two weeks ago.

Mr. Kellogg had been in poor health for the past six months, but came regularly to the office until this week. His last visit to the office was on Monday. Because of his long service, Mr. Kellogg is as well known to the lawyers of this state as any of the supreme court judges, and he has issued a certificate to practice law to nearly every lawyer in the state at the present time.

With his father, Lafayette Kellogg, the two held the record of clerkship in the supreme court. The father was appointed deputy clerk of the supreme court in 1832 and the son succeeded him upon his father's death in 1878. Mr. Kellogg was his father's deputy for several years before his father's death.

H. L. Kellogg, Edgewise, is his son. The funeral will be held Saturday.

I. O. O. F. NO. 90 WIN FROM I. O. O. F. NO. 14

The West Side Odd Fellows' bowling five defeated the East Side team last night at the Miller alleys before a large number of spectators.

West Side team lost in the first event, but took the next two and won the game by one hundred and thirty two pins. Merrick was high man for the evening with a score of 198.

**Insect Feigns Death.** The deathwatch beetle has the invariable habit of feigning death when seized or disturbed. The stimulation is so persistent that when immersed in water, or even in alcohol, the insect remains perfectly immovable, and will allow itself to be burned alive rather than betray itself. The tick made by the deathwatch resembles that made by tapping the finger nail upon the table—so much so that the insect may be led to recommence his sounds by doing this.

The annual meeting of the American Academy of Railway Surgeons will be held in Chicago, Oct. 13, 14 and 15. Dr. T. W. Nuzum is attending, and on Friday will give a paper on "Accidents and Invalidism."

**Optimistic Thought.** A clever man's inheritance is found in every country.

**Why Editors Age Prematurely.** "Will you please give me," an East side woman writes earnestly to the Star, "a little information through your columns of 'Answers' I am making a shoe polish and want to know what ingredients to use to produce the shine. It is all satisfactory except that it does not give the desired polish."—Kansas City Star.

**Unwilling to Impose on the Lord.** "What does 'you think, sah,' 'bout de 'vangelist's notion o' holdin' sunrise pra' meetin's?" "I calls it plumb foolish, sah!" replied square-headed old Brother Clank. "Uhkase why? De Lawd ain't gwine to tumble out o' bed dat early in de mawnin' to listen to a bunch o' niggers dat's got all day to do deir prayin' in!"—Kansas City Star.

# WOMAN'S PAGE

## Married Life on \$80 a Month

By HENRY E. LEONARD

Venturing out in the evening to find her husband, Molly sees him walking with the stenographer.

It was a dismal, rainy autumn night. Molly Sutton sat alone with her mending basket listening to the soft drip of the rain. It was a night that called for a blazing fire and cheerful company to counteract the gloom of the weather.

She was very tired, for she had done a washing that day because there had been no money to pay the laundry. She had resolved to hold her decision to run up no more bills, and she had resolved to make necessary by the desolate state of her finances.

"All the thanks I get for my hard work is to be left to spend the evening with the mending basket for company," she wiped away the tears of self-pity.

"I wouldn't be so hard on myself if I wasn't so miserably alone," she supposed he is out with that stenographer whose handkerchief I found in his pocket.

She drew her hand out of the stocking, and dropping her head on her arm, resigned herself to her tears.

As she leaned against the table with the drop of utter exhaustion, the desolation of her position was emphasized on her with poignant regularity. The dismal drip of the water from the dave trough, the squeaking of a rickety shed door, the creaking of the silliness till it was past endurance. She rose, and pushing her hair from her flushed face, went to the window, and placing her hands beside her face looked out into the darkness. The rain had nearly stopped and a black

hush brooded over everything. She turned from the window, a look of resolve on her face. "Occasionally John has to work in the evening," she said to herself as he is at the office. It will be something to know that he is there, and if he is not there, she did not finish her sentence, but went to the bedroom and in the half light bent over the crib where little Jack lay sleeping.

"He will be all right," she said to herself, and a few minutes later she slipped on her rubbers, and throwing a shawl over her head went out into the night.

As she hurried down the street she nearly ran into a man. Pouring it might be her husband, she stood still beside the road and watched to see if he turned into her gate. No, he disappeared in the darkness beyond and she turned her face toward the office.

Only the principal streets of Fairport were lighted, and she had fairly lost her way along the dark road. Her heart beat with suffocating rapidity.

"What a fool I am," she thought scornfully. "What does it prove either way? There is only one thing I am sure of, and that is, John cares nothing for me, and I did not have to go prowling around in the night to learn that."

She saw a couple coming and shrank close to a building to pass them unobserved. Just then a laugh rang out. It was John's laugh; it had been long since she had heard it, but there was no mistaking it. She watched them as they passed under the street lamp on the corner.

The girl was looking up in his face; the happy, jolly face she remembered as belonging to a past that seemed very remote. When they had turned a corner she hurried home, and prepared for bed in frantic haste. She could not truly herself to sleep that night; she must have time to think. She would feign to be asleep, that she might plan what she could do.

(To be continued.)

## Household Hints

### THINGS WORTH KNOWING.

To sharpen the knives of food chopper, run pieces of sand soap through them.

To clean wire clothesline when rusty, take a greased cloth and rub it thoroughly. It will take rust off and won't bother you so much about rusting again.

**Tablecloth Helps**—Take three strips of linen crash toweling—plain or bordered, bleached or unbleached as you desire. Over and over stitch the edges together with a stout thread, rather loose, but shallow stitch. Hem the ends. This tablecloth will long outwear table linen of laundries. Compared with oilcloth it is more elegant and more agreeable to the touch in cold weather, and is likely to encourage careful habits at the table both in children and grownups.

**Essence of Celery**—Soak for two weeks half an ounce of the seeds of celery in one-fourth pint brandy. A few drops will flavor a pint of soup, equal to a stick of celery.

**Aromatic Vinegar**—Many a cook will serve mint sauce in the season when she can't get the genuine mint, yet never think of preparing mint vinegar to make it possible to serve her favorite sauce at any season. To prepare the vinegar, wash the mint leaves, shake them dry and put into large-mouthed bottle. Fill the bottle with good cider vinegar, and at the end of a month strain off all the vinegar and seal it up in small bottles. For nasturtium vinegar, proceed in the same way, substituting the green leaves of the nasturtium for the mint leaves.

**THE TABLE.** Meat Pie—One and one-half pounds veal breast cut in small pieces; cover well with water, let stew one hour, season well with salt, pepper and two onions cut small. Cook until all is tender. Make a crust of two cups flour, pinch of salt, teaspoon lard and half of baking powder, one tablespoon lard and half of baking powder. Roll out to fit baking dish, perforate as for pie, put in meat and potatoes, cover with crust, bake about thirty minutes.

**Salmon, Shrimp, Lobster Salad**—Take large can fish, remove bones, skin and liquid. Add two stalks celery cut up in one-inch pieces, one cup English walnuts, four hard-boiled eggs sliced. Then add generously enough of good rich boiled dressing to moisten. Serve on crisp lettuce leaves.

**Boiled Salad Dressing**—Two level tablespoons sugar, one level tablespoon flour, 1½ teaspoons mustard, one-third teaspoon salt, dash of cayenne pepper, three tablespoons melted butter, yolks of two eggs, one cup milk, half cup vinegar. Cook in double boiler. Just before using add one cup cream.

**Almond Seed Drop Cookies**—Six eggs, one pound sugar, one teaspoon almond seed, four. Break eggs into large bowl, add sugar and beat mixture for about five minutes. Then add the almond seed enough flour to make a thick batter. Allow this to stand overnight, during which time it will rise. In the morning drop by spoonful on greased cookie tin. Bake in moderate oven. These are delightful for lunches or parties, and keep fresh indefinitely.

**Yeast**—One and one-half pints yeast sponge, one pint lukewarm water, two-thirds cup soft lard, one cup granulated sugar, 2½ in enough flour to stiffen. Let rise three hours. Mold about the size of a walnut, place on greased tin so they will not touch, and let rise four hours. Bake in quick oven about twenty minutes. When molding have some melted butter on a saucer and dip the top of the bun into it. This makes them a beautiful brown.

**SIMPLE HOME REMEDIES.**

**For Cold in Head**—Place a little ground mustard in the bottom of a glass, will draw cold out of head in less than three days.

**Home-Made Salve**—Take one cup of elderberry bark, shave fine, fry in 1½ cups fresh lard till the bark becomes black. Strain while hot. Fine for burns and skin disease.

**Remedy for Indigestion**—Put one-half teaspoon baking soda and ten drops of essence of peppermint in one-half glass hot water, and take full dose. Repeat in one-half hour if necessary.

**For Young Mothers**—If a mother nursing a baby has some difficulty to give the baby colic, let her take after the meal one-half teaspoon peppermint in a half glass of sweetened water.

Read the want ads every day. What you are looking for may be there.

## HEALTH TALKS

By WILLIAM BRADY, M. D.

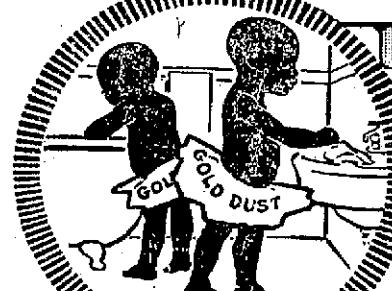

### Come Take a Walk.

Some very modern, unconventional medical person has perfected—you have to use that word perfected in speaking of any new remedy or treatment—a sure cure for senility. Senility is the medical name for old age. Old age is a matter of hardening of the arteries. It is a disease that is the result of the arteries and the high blood pressure that serves as a signal of its onset is curable if taken in time. It is primarily a state of mind, but we need not go into the psychology of senility here. The point of this present discourse is that there is no need of people rushing into invalidism so soon after middle age as many do. The increasing death rate in those over forty is unnecessary. Arterio-sclerosis and its three Bright's disease and apoplexy—may be summed up in one word, intoxication.

There are different kinds of intoxication which wear out the arteries. First, infectious or acute or chronic type; second, poisons deliberately or ignorantly taken into the blood, such as alcohol, tobacco, lead and, in instances, tea, coffee or cocoa; and last and most important of all, self-made poisons, auto-intoxication, over-eating.

Auto-intoxication does not presuppose that the victim owns an automobile, but it does mean that he lives fast. If it is evidence that he consumes more food than his system can metabolize or burn up or utilize. It shows that his appetite is a few sizes too big for his occupation and habit of life. Auto-intoxication, the chief factor of hardened arteries, happens to the person who doesn't get enough open-air exercise. The sure cure referred to is this:

Take two miles of oxygen three times a day. Walking is ideal exercise for every one. It is a natural activator

## The Active Cleaner

Gold Dust never shirks its work. Being an active cleaner, it dissolves quickly in hot or cold water forming a solution that you can use with confidence on tiling or any kind of enameled ware; on

woodwork, bathroom fixtures and every kind of kitchen and table ware.

## Heart and Home Problems

Letters May Be Addressed to Mrs. Thompson, in Care of The Gazette

Dear Mrs. Thompson: (1) Is there any harm in drinking port wine?

(2) I have been away from home for over two months, but I expect to go home next month. I have a boy friend at each town and I do not know which I like better. Do you think I am staying where I am staying now asked me to marry him. I like him when I am with him, but when I am away from him I think of the foolish way he laughs and acts. He is a handsome fellow and I have only these faults against him. Do you think we could be happy?

(3) The other fellow from my town is also handsome and a town is away from him I think of the foolish way he laughs and acts. He is a handsome fellow and I have only these faults against him. Do you think we could be happy?

and he says he loves me and asks me to marry him. I told him that I would give him my answer the next time I went home. I am not sure what I should say and think that he is just joking with me. When he is with me he acts as though he could not leave me alone. Do you think this would last long? I have been going to college every year since I was a child.

(1) Port wine is just as much a liquor as anything else, and should be taken only for medicinal purposes.

(2) If you notice faults in this boy before marriage you never could stand them after. Tell him that you are too young to become engaged now.

(3) You do not love either of the boys or you would not be so undecided. If the boy at home really cares for you, he will willingly wait a year or two for your answer.

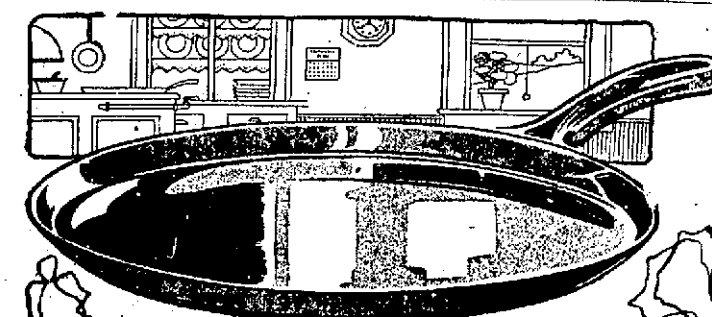

Dear Mrs. Thompson: I'm in the first year of college and am very much in love with a girl fifteen years of age. Do you think it would be proper to keep steady company with the view of being engaged in the spring? I'm very anxious to keep this girl's company, because I'm afraid some one else will win her.

R. F.

It would be very foolish to become engaged to the girl while you and she are so young. She ought to be free to pick the man she loves most, and if she becomes engaged to you she will not have this opportunity. You also are too young to know your own mind.

Dear Mrs. Thompson: We are girls of fifteen and would like your advice.

(1) Is it proper for about eighteen

## This Karo Premium Griddle

LABELS from 50c worth of Karo (blue or red) and 85c brings you fine 10½ inch aluminum griddle by parcels post prepaid. This Karo griddle, light and easy to handle, bright as a new dollar and needs no greasing, therefore no smoke. Heats uniformly all over, is very economical, will not rust, is easy to keep clean—AND MAKES THE FINEST GRIDDLE CAKES YOUR MEN FOLKS EVER TASTED.

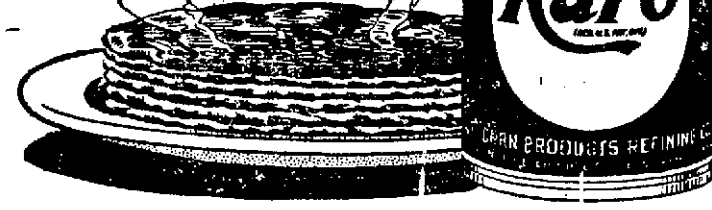

This griddle retails regularly at \$2.25. Send your order for the Karo Aluminum Griddle today. This offer will prove popular. Place your order promptly.

## The Men of America Know Pancakes and They Know KARO

### Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup  
Easily and Cheaply  
Made at Home

If some one in your family has an obstinate cough or a bad throat or chest cold that has been hanging on and refuses to yield to treatment, get from any drug store 2½ ounces of Pinex and make it into a pint of cough syrup, and watch that cough vanish.

Pour the 2½ ounces of Pinex (50 cents worth) into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents, and gives you a full pint—a family supply—of a most effective remedy, at a saving of 82¢. A day's use will usually overcome a hard cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it.

It is really remarkable how promptly and easily it loosens the dry, hoarse or tight cough and loosens the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent hoarse cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in vitamin, which is so healing to the membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex," and do not accept anything else. A guarantee of absolute satisfaction goes with this preparation or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

## The Battle-Cry

By CHARLES NEVILLE BUCK  
Author of  
"The Call of the Cumberland"

Illustrations by C. D. Rhodes

(Copyright by Charles Neville Buck.)

TO EBB off suddenly and a smile came to his face; a remarkably naive and winning smile, the girl thought. Striking an attitude, he added in a tone of mock seriousness and perfect lowland English, without a trace of dialect: "I beg your pardon, Miss Holland. I mean that what was sufficiently good for his environment appeared adequate to him."

The girl's laughter pealed out in the cool air, and she said with an afternote of surprise: "Why, Mr. Hovey, you didn't speak like a mountain man then. I thought I was listening to a 'furrier.'"

He nodded his head and the smile died from his lips. Into his eyes came the look of steady resolve which was willing to fight for an idea.

"I just did that to show ye that I could. If I wanted to, I reckon I could talk as good English as you. I reckon ye won't hardly hear me do it no more."

"But why?" she inquired in perplexity.

"I reckon it sounds kinder rough an' 'runt to ye, this mountain speech. Well, to me it's music. It's the language of my own people an' my own hills. I loves it. It don't make no difference to me that it's bad grammar. Birds don't sing so sweet when ye teaches 'em new tunes. To my ears the talk of down below is hard an' unnatural. I don't like the ways nor the speech of the flat countries. I'll have none of it. Besides, I belongs here, an' if I didn't talk like they do my people wouldn't trust me. He paused a moment, then added: "I'd hate to have my people not trust me. So if ye don't mind, I reckon I'll go on talkin' as I learnt to talk."

She nodded her head. "I see," she said quietly.

"What do ye aim to call this school?" he asked suddenly.

"Why, I thought I'd call it the Holland school," she answered, and when he shook his head and said "Don't do it," she colored.

"I didn't mean to name it for myself, of course," she explained. "I wanted to call it after my grandfather. He always wanted to do something for education here in the Kentucky hills."

"I didn't mean to find no fault with the name of Holland," he told her gravely. "That's as good a name as any. But don't call it a school. Call it a college."

"But," she demurred, "it's not going to be a college. It's just a school."

Again the boyish smile came to his face and seemed to erase ten years from his age. His manner of speech made her feel that they were sharing a secret.

"That don't make any difference," he assured her. "Mountain folks are all mighty proud an' touchy. I shouldn't be astonished if some gray-haired folks came to study the primer. They'll come to college all right, but it wouldn't hardly be dignified to go to school. If you want to get 'em ye must needs call it a college."

The girl looked at him again and said in a soft voice: "You are always teaching me things I ought to know. Thank you."

Junia stood as he left her and watched him striding down the slope. On his part he went back to his house and found it suddenly dark and cheerless and unsatisfying.

Into the soul of Bad Anse Hovey had come a new element, and the prophet which was in him could see a new menace; a necessity for curbing the grip of this new dream which might easily outgrow all his other dreams and bring torture to his heart. Here was a woman of fine fiber and delicate culture in whose eyes he might at best be an interesting barbarian. Between them lay all the impassable barriers that quarantined the tangled coves of the mountains from the valleys of the rich lowlands. Between their lives and viewpoints lay the same irreconcilable differences.

And yet her image was haunting him as he went his way, and in his heart was awakening an ache and a rupture.

On several of her buildings now the hammers were busy shingling the roofs. Her influence grew and spread

among the simple folk to whom she was unostentatiously ministering—an influence with which the old order must some day reckon.

Anse Hovey set his face against crossing her threshold with much the same resolution that Ulysses stuffed his ears against the siren song—and yet with remarkable frequency they climbed at the same time from opposite directions and met by the poplar tree on the ridge.

"It's the wrong notion," he told her obstinately, when her enthusiasm broke from her. "It's teachin' things that's goin' to make the children ashamed of their cabins an' their folks. It's goin' to make 'em want things ye can't hardly give 'em."

"Go to any cabin in these hills an' ye'll find the pinch of poverty, but ye won't find shame for that poverty in none of 'em. We ain't got so many virtues here maybe, but we've got a few. We can wear our privations like a uniform that we ain't ashamed of—yes, an' make a kind of virtue out of it."

"I'm not out of sympathy with that," she argued. "I think it's splendid."

"All right," he answered, "but after ye've taught 'em a few things they won't think it's splendid. Ye'll breed discontent an' then ye'll go away, an' all ye'll have done will be to have knocked their one simple virtue down round their ears."

"How many times do I have to tell you I'm not going away?" demanded the girl hotly. "Just watch me."

Again he shook his head, and into his eyes came a look of sudden pain. "I reckon ye'll go," he said. "All good things go. The birds quit when winter comes an' the flowers go."

So, in an impersonal way, they kept up their semblance of a duel and mocked each other.

### CHAPTER XVI.

In an office which overlooks the gray stone courthouse in Louisville sat a youngish man of somewhat engaging countenance. In the small anteroom

The Girl from Philadelphia Had for Some Days Been Watching the Road.

of his sanctum was a young woman who hammered industriously on a typewriter and told most of the visitors who called that Mr. Trevor was out. That was because most of those who came bore about them the unmistakable half-mark of creditors. Mr. Trevor's list of creditors would have made as long a scroll as his list of business activities.

Yet for all these cares Mr. Trevor was just now sitting with his feet propped on his broad desk, and his face was untroubled. He was one of these interesting gentlemen who give a touch of color to the monotony of humdrum life. Mr. Trevor was a soldier of fortune who sold not his sword, but the very keen and flexible blade of his resourceful brain.

Roger Malcolm of Philadelphia knew him only as the pleasant chance acquaintance of an evening spent in a New York club.

He had impressed the Easterner as a most fascinating fellow who seemed to have engaged in large enterprises here and there over the face of the globe. So when Mr. Malcolm presented his card in the office anteroom the young woman at the machine gave him one favoring glance and did not say Mr. Trevor was out.

"So you are going to penetrate the wilds of the Cumberland, are you?" inquired Mr. Trevor in his pleasing voice, as he grasped his visitor's hand. "Tell me just where you mean to go and I'll tell you how to do it with the

least difficulty. The least difficult down there is plenty."

"My objective," replied Mr. Malcolm, "is a place at the headwaters of a creek called Tribulation, some thirty miles from a town called Peril."

"I know the places—and their names fit them. I'd offer to go with you, but I'm afraid I wouldn't prove a benefit to you. I'm non grata with Bad Anse Hovey, Esquire, and Mr. Milton McBrier, who are the local dictators."

Mr. Malcolm laughed. "In passing," he said, "I dropped in to talk over the coal development proposition which you said would interest me."

Mr. Trevor reached into his desk and brought out several maps. "The tentacles of the railroads are reaching in here and there," he began with the promoter's suave ease of manner. "It is a region which enterprise can no longer afford to neglect, and the best field of all is as yet virgin and untouched."

"Why did you drop the enterprise yourself?" inquired his visitor.

"I didn't have the capital to swing it. Of course, if it interests you and your associates it can be put through."

Malcolm nodded. "I am going primarily by way of making a visit," he said. "I meant to go before you roused my interest in your proposition, and it occurred to me that I might combine business with pleasure."

The promoter looked up with a shade of surprise. "You have friends out there in that God-forsaken tangle?" he inquired. "God help them!"

"A lady whom I have known for a long while is establishing a school there."

With the mention of the lady Malcolm's voice took on an uncommunicative note, and Mr. Trevor at once changed the topic to coal and timber.

The girl from Philadelphia had for some days been watching the road which led in tortuous twists from Peril to the gap. She herself hardly realized how expectantly she had watched it.

She was thinking of the man she had sent away and wondering what their meeting would be like. And the girl of the hill sitting near by would look on, her fingers gripping themselves tightly together and an ache in her own heart. Deep in Dawn's nature, which had been coming of late into a sweetly fragrant bloom, crept the rancor of a fierce jealousy for the man from "down below" whom she had never seen, but whose letter could make Junia forget present things and drift away into a world of other days and other scenes—a world in which Dawn herself had no part.

Junia was wondering if, after all, she had not misjudged Roger Malcolm. She wanted to think she had, because her heart was hungry for love. She had written to him, sternly forbidding his coming, and if he obeyed that mandate he would, of course, prove himself weak and lacking in initiative. So she was waiting with a fluttering heart.

But on the day that he came she was not watching. He had pushed on at a rate of speed which mountain patience would not have countenanced and had arrived in two hours less than the journey should logically have required. The heaving sides of his tired horse told almost as much of the eag-

erness that had driven him as did the frank worship of his face.

At the front fence he hitched his mount and walked noiselessly up to the larger house. Two feminine figures sat sewing in the hall as he silently opened the unlatched door and let himself in. One of them was a figure he knew even with its back turned—a figure which, because of something distinctly subtle and wondrous, could belong to no one else. The other was a mountain girl of undeniable beauty, but, to him, of no interest.

It was Dawn who saw him first and, with a glance that brought a resentful flash to her eyes, she rose silently and slipped out through a side door. Then, as Junia came to her feet with a little gasp and held out both hands, the man's heart began to hammer wildly, and he knew that the fingers he held were trembling.

He would have taken her at once in his arms, but she held him off and shook her head.

"I told you not to come," she rebuked him in a voice that lacked conviction.

"And I flagrantly disobeyed you," he answered. "As I mean henceforth to disobey you. Once I lost you because I played a weak game. You want a conqueror, and I have always been a suppliant. Now I have changed my method."

(TO BE CONTINUED.)

Heavier Than Water.  
Gold weighs nearly twenty times as much as its own bulk of water.

Dinner Stories

"I hear they have an excellent curriculum at this school," said Uncle John, who was visiting his nephew at college.

"You bet your life we have," replied the nephew enthusiastically. "It's built of steel and concrete and seats twenty thousand people. Come on over and I'll show it to you."

When Pat was engaged as a coachman, his employer said:

"You know, Pat, I shall expect you to do things by combination. For instance, if I tell you to bring the carriage around at a given time I shall expect the horses with it and driving gloves, etc."

One day his master came to Pat in a hurry, telling him to look sharp and go for a doctor as his mistress was ill. Pat was gone for a long time. Upon his return his master stumbled at him for his delay.

"Sure, they're all here, sorr," said Pat.

"All here!" said the master. "What do you mean?"

"Didn't you tell me to do things by combination?"

"What's that got to do with it?" said the master.

"Well," said Pat, "I've got the doctor, the parson and the undertaker."

A physician tells of two young friends of his who entered simul-

ly the same profession.

## Money-Making Ways of Using Want Ads

### No. 4—How Farmers Can Use Want Ads Profitably

Farmers can make money through Want Ads. "City Farmers" with back-yard tracts, or regular "country farmers" can get in touch with buyers through these columns. It is all in using the Want Ad idea properly. Here are some suggestions. Adapt them to your own offers, and you will do business:

SELLING PRODUCE BY PARCEL POST	HOW TO GET ORDERS FOR PRODUCE
FRESH DRESSED POULTRY, from churning butter and fresh vegetables delivered at your door by parcel post direct from my farm. Spring chickens, dressed, 15¢ a pound. I put up a big 50¢ package and turnip—right from the soil. You get them the next morning, packed securely in oil paper. Send money order to John Smith, R. R. No. 4.	FRESH VEGETABLES DELIVERED at your door on direct order Wednesdays

## TOMMY CAN'T FIGHT WITHOUT HE SMOKES

British Soldiers Give Tobacco Credit for Their Success Against the Germans.

(Special to the Gazette.)

London, Oct. 14.—If the English supply of tobacco and pipes only holds out, there can be no question as to the final favorable outcome for the allies. This, at least, is Tommy Atkins' opinion.

Tommy admits that recently the ministers have made quite a fuss about munitions, but insists that even with munitions it still requires men to win the war. He puts it this way: "It takes heros to win a battle and the thing most necessary to make Tommy a hero is a faithful pipe that will stand by him in any emergency." Recently he has cited concrete examples to prove this thesis and persuade the British public to contribute more liberally towards the tobacco pouch in France and the Danes.

There was Lieutenant W. Forshaw, won the Victoria Cross at Gallipoli. Three months continuously for forty-four hours, using his pipe and cigarette for lighting fuses. Tommy insists he could have used his cigarette lighter just as effectively, but that without smoking he could not have withstood the strain.

There was P. Barry, snapper of the First London Field company. He found a parapet too high for his machine gun. So he lighted his pipe, climbed the parapet, and putting the gun up after him, continued in action. He got the Distinguished Conduct Medal for it. But Tommy insists that the encouragement of his pipe did it. Only a soldier at the front, Tommy insists, knows the real value of a smoke. To illustrate, he declares there was a Tommy, who during the retreat from Mons, was lucky enough

## TODAY'S BEAUTY AIDS

To clear up and whiten the skin and secure that charm of pink and white youthful freshness so much desired by all women you will find it far safer to rely upon a good face lotion rather than powder. To get rid of that shiny and muddy appearance in your complexion, dissolve four ounces of spumant in one-half pint of water, and add two teaspoonfuls glycerin. Apply this to your face, neck and arms, rubbing gently until dry. This lotion does not show or rub off like powder and is much better. It is splendid for removing tan, freckles, pimples and sallowness. You can make a delightful shampoo for a very trifling cost if you get from your druggist a package of camphor and dissolve a teaspoonful in a cup of hot water. Pour a little at a time on the scalp and rub briskly. This creates an abundance of thick, white lather that thoroughly dissolves and removes all dandruff, excess oil and dirt. After rinsing, the hair dries quickly, with a fullness that makes it seem heavier than it is, and takes on a rich luster and softness that makes arranging it a pleasure.—Advertisement.

to find a horse. He kept astride for a whole day, making fair progress. Then he traded the nag to an artilleryman for a package of cigarettes. Just as he knew would be the case, the Tommy was able, with a cigarette in his mouth, to make faster progress about than astride.

Even civilian life has been drawn upon by Tommy to move the British public to contributions. Following the fall of Liege last year, he asserts that an aged man with two grand-children limped into Ostend after a tramp of over 100 miles. He had no money and only what food was given him by charitable people along the way.

"But I had one thing," he told the Tommies at Ostend, "that sustained me wonderfully: my pipe and plenty of tobacco." "Don't believe I should have been able to reach Ostend alive if I had not been able to light up when I wanted to."

What worries Tommy, in his present agitation to secure tobacco contributions, is the French. He insists the French tobacco is vile. Yet he has to admit that the French are better than us because as he says, his only explanation is that possibly the French soldier has some other source of inspiration besides his pipe, and that he may not be forced to have recourse to French tobacco, and secondly that he may not be bothered any less by the French.

## Whitewater News

Whitewater, Oct. 14.—A. L. Peterson and family attended the funeral of Otto Oldenburg, at Burlington, Tuesday. Mr. Oldenburg was killed at Zenda, when he attempted to walk from the roof of a building across a ladder to the barn, a few feet away. The ladder broke and he fell onto a stone wall, breaking his back. He lived twelve hours, giving his friends a detailed account of his business. The deceased was widely known as a contractor for silo roofs, and had done much work in this vicinity.

Rev. N. C. A. Ganness goes to Chicago next Sunday and will preach in St. Paul's church both morning and evening.

Mr. and Mrs. Henry Baade are visiting in the district of Sparta a few days.

Mrs. Jack was called to Kilbourn Wednesday by the news that her father had been badly injured by falling from a tree.

Mr. and Mrs. John Willis came yesterday from Rockford, Illinois, for a visit with relatives.

The Monday club was entertained last evening by Mrs. E. C. Kiser. A six o'clock supper was served at the Guild Hall by the Episcopal ladies, which was followed by a program. The topic for the evening was "The Burden of His Work," and papers were read by J. C. Cox and W. S. Watson.

Mrs. Helen Lowry of Footville, Royal Neighbors' deputy, was present last evening at the regular meeting. Mrs. Lowry is to spend several days in Whitewater, and while here hopes to secure a class. A reception in her honor is to be given this evening by Mrs. David Creighton, Mrs. O. C. O'Brien and Mrs. H. D. Winnie at the home of the former.

Mr. and Mrs. Fred Luening are spending this week at the Hanson cottage, Whitewater Lake.

O. L. Howard left yesterday for Dundee to see his son Arthur, who

was hurt badly from falling into a silo.

E. C. Kiser is in South Dakota on business.

Miss Janette Cleland has returned from an extended visit at Buffalo, Minn.

Dr. H. F. Dean returned Tuesday, after a visit of several weeks through Montana.

Mrs. Paul Lambert of Chicago is the guest this week of her aunt, Mrs. H. C. Brown.

A few of the high school teachers gave Miss Emma Dahlen a pleasant surprise last evening.

James Hunt and family have moved into a house on Second street.

## TWO ROADS FENCED; BEING RESURFACED

Work Near County Farm and on Affton Road, Near Beloit Closes Thoroughfares to Traffic.

Resurfacing work on the Edgerton road in the vicinity of the county farm, just north of this city, and on the Affton road, just north of Beloit, has been resumed and both highways have been fenced. All traffic will be absolutely prohibited until the work is completed. Highway Commissioner Moore stated today. North of this city the resurfacing will cover a distance of about a mile, including the stretch through the stone quarry. Travel on Edgerton must go by way of Milton and travel to the county farm or north of it must take Milton avenue as far as the cross road. Traffic to Beloit must be by way of the Yost park road.

Mr. Moore states that the construction work still to be completed this year is progressing favorably and will be finished within two weeks. Although he has received requests to continue and start 1916 work, he does not believe such a course would be advisable.

## KILLS EIGHT SOLDIERS WITH HIS MARKSMANSHIP

(Special to the Gazette.)

Vienna, Oct. 13.—A remarkable feat of marksmanship is reported from the southwestern front, where many of the famous Tyrolese riflemen are fighting against the Italians. A troop of the so-called Kaiser Light Infantry, which was fighting on the Dobereiner plateau, got into a most precarious position in advance of the Austrian lines. They could not retreat as the ground over which they would have to run was fully covered by the Italian guns. They held their ground for several days, while suffering greatly for lack of food and water.

**A Perfect Complexion**

Gives that delicately clear and refined complexion which every woman desires. Keeps away skin troubles.

**Gouraud's Oriental Cream**

We will send a complexion cream and box of powder free for the cost of postage.

At Druggists and Department Stores

FERD. T. HOPKINS & SON  
37 Great Jones St., New York City.

The Italian artillery was playing upon them with accuracy, being directed by means of a post of observation at a higher ground than that held by the Tyrolese. It was regarded as necessary to get rid of that post, which consisted of eight Alpine; and so soldiers who had made a reputation for themselves as expert marksmen undertook the difficult task. Climbing stealthily by night, as if hunting chamois, he reached a hiding place in the foot of the post; and when the eight Italians began to stir the next morning he quickly picked them off, one after the other.

## Edgerton News

BASEBALL FANS AWAIT BIG GAME SATURDAY

Edgerton, Oct. 14.—Ball fans of Edgerton are eagerly looking forward to the game between the local team and the city ball team, strengthened by the addition of Minneapolis pitcher and catcher. A baseball team, who will catch for the locals, and Jimmy Scott of the White Sox who will do the mound work. The local team will be otherwise bolstered up and the Leland Clants of Chicago, colored, will be given a real tussle while local fans will see a real ball game. On Saturday the fast local high school football team will meet the Edgerton team in a hard scrap expected since the locals were barely beaten by Madison and Madison was beaten by the Monroe boys by a small score.

The W. C. T. U. entertained in a most royal manner last evening at the Hotel Memorial rooms of the Methodist church. The invited guests were the teachers of our public schools, the pastors of all the churches, members of the Board of Education and the editors of the city papers.

The subscription constituted the theme of an excellent address by Mrs. Wheatman Dickinson which followed a musical number and a most enjoyable reading by Miss Evelyn Welch. The program was enjoyed by all. The program was the later wearing of two songs by small children into the principal address, a song of Welcome with the welcome of the speaking guests, and a song of "Prohibition" words of the speaker. Prohibition 1920 the children sang to the tune of "Tipperary." It's a long, long way to Prohibition.

Mr. and Mrs. E. M. Hubbell leave today for an extended trip through the west. They expect to spend some time in Denver, Salt Lake City, San Francisco, Los Angeles, San Diego, and expect to visit Mr. Hubbell's father, who is in California.

Postmaster C. A. Hoer returned this morning from Appleton where he has been attending the post masters convention that was held in this city this week.

Mrs. Wm. Knoll spent the day yesterday visiting friends in Stoughton. Mrs. Will Bentley of Madison was in the city yesterday to attend the funeral of the late S. A. Allen.

Mrs. E. M. Ladd visited friends in Stoughton yesterday.

Mrs. Herman Stankey and Mrs. Dean Swift spent the day yesterday visiting friends in Janesville.

Miss Georgia Glidden of Janesville spent a portion of yesterday at the home of Mrs. J. H. Manning.

Mrs. Trosseau of Birmingwood, Wis., is visiting at the home of Mr. and Mrs. E. C. Tallard for a few days.

Mr. and Mrs. Willard Heddles of Madison were in the city yesterday to attend the Allen funeral.

Chas. Bunker left for Milwaukee yesterday to visit friends for a few days.

H. M. Lockwood who has been visiting at Spring Green, the past three months returned to her home in the city yesterday.

Mr. J. O. Dowson is a business caller to Milwaukee for a few days.

Misses Katherine, Mae and Alice Nichols were in the city yesterday evening to be present at a miscellaneous show in honor of Miss May Roberts at the home of her sister Kitty Roberts.

L. A. Anderson is a business caller in Milwaukee today.

R. B. Hirtling has sold out his business in the Prince block in this city and has taken up theatrical work with Ted Lewis of Stoughton. The young men are now in Harvard, Ill. where they will stage the home talent play "Billy's Bungalow" in a few days.

Scott Hatch left this morning for Bethel, Vt., to visit at the home of his father. He expects to be absent a month or more.

Frank Mout of Janesville was an Edgerton caller yesterday.

William Fessenden formerly of this city, now of Antigo, is visiting friends here today.

Donald McInnis of Stoughton visited friends and relatives in this city yesterday.

Geo. Ray is transacting business in Madison today.

Mrs. Lewis Schachtschneider is visiting friends in Stoughton today.

A large crowd attended the dancing party given at Borkenhagen's Hall on Saturday evening, and all report a good time.

Rev. Feiten attended the mission services at Janesville Sunday night.

Henry Schroeder was a Janesville visitor Monday.

Mr. and Mrs. John Zebell of Plymouth moved into their home here Tuesday.

Mr. and Mrs. William Ehringer, Mr. and Mrs. George Meythaler and son Glenn, Clayton Jackson and Pete Larson attended Cheese Day at Monroe on Tuesday.

Oscar Jensen and Clayton Jackson were Orfordville visitors Tuesday night.

Rev. and Mrs. Pfeifer are settled in the parsonage. Rev. Pfeifer being preacher in the White church.

A few from here attended the auction sale of Lot 10 on Wednesday.

Church Announcement.  
Sunday, Oct. 17th, English services at 10 a. m. Holy communion will be celebrated. Announcement! Sunday school at 11:30 a. m.  
Sunday, Oct. 24th, German services at 10 a. m. Welcome.  
P. FEITEN, Pastor.

## Orfordville News

Orfordville, Oct. 13.—Vincent Schieler of Blooming Prairie, Minn., is spending some time with Orfordville friends. Anna Peterson of Janesville is spending a few weeks with her sister, Mrs. Sam Osgard.

Mrs. John Vidahl is spending the week with Mr. Vidahl's brother, in the town of Spring Valley.

Knud Williams of St. Ansgar, Iowa, is visiting with relatives in and about Orfordville. Mrs. Williams has been with friends here for several weeks.

The regular meeting of the Missionary society of the Lutheran church was held at the church parlors on Wednesday afternoon. They were entertained by Mesdames T. Amundson, G. Gunderson and O. A. Peterson. There was a good attendance and an interesting time.

The masons have finished the brick work on the school house and the latrine and other interior work is well under way. The heating plant is being installed, and it looks as though the time were not far distant when the building can be occupied.

## HARMONY

Harmony, Oct. 13.—Miss Mina Patterson of Rock Prairie spent Sunday with Mr. and Mrs. J. P. McNally.

Mr. and Mrs. William Costigan and Mr. and Mrs. Wilbert Stewart motored to Whitewater, Sunday.

Chas. H. Hull and Arthur Hull spent Saturday evening at the home of J. P. McNally.

Mrs. Johanna O'Connor has had her buildings painted.

Robert Hanlon is building a barn.

Joseph Stewart spent Tuesday evening at J. P. McNally's.

Mrs. J. Hanlon received the sad news of the death of her brother-in-law, Patrick Morrison, at his home in Eagle River. Mr. Morrison leaves two children, a wife and four children.

Mrs. William and Mrs. M. J. Connor spent yesterday afternoon with Mrs. James McNally.

## UTTER'S CORNERS

Utter's Corners, Oct. 13.—The stewards of the church will serve a pecuniary supper at the home of Mr. and Mrs. Eugene Paynter Friday night of this week, to raise money to pay Rev. Paynter's expenses. Everybody cordially invited to come and boost a little and have a good social time.

Stanley of Whitewater were Sunday visitors at the home of Mr. and Mrs. Roger Parsonson.

Mrs. Paynter of Whitewater is visiting her son, Eugene Paynter, and family this week. Mrs. Paynter spent last week with her daughter, Mrs. Wm. Harrington, near Lima.

Mrs. Lizzie Utter of Whitewater was a recent visitor at the Albert Shields home.

C. L. Hackett of Fort Atkinson called on friends here Sunday.

Farmers are having the time of their life trying to get their corn harvested. The crop is big and badly tangled, making the work difficult and slow.

George Roe and daughter Marguerite entertained friends from Milwaukee Saturday night and Sunday.

Mrs. George H. Roe and little daughter returned Tuesday night from a two weeks' visit with relatives in Milwaukee and Watertown.

Another big rain Wednesday morning gives corn cutting another set back.

SMALL PINE HOUSES REPLACE RUINED HOMES IN RAVAGED DISTRICTS

(By Associated Press.)

Paris, Oct. 13.—Throughout the ruined villages of northern and eastern France, small one-story unpainted houses have appeared like mushrooms overnight. Serravallo-Bains, which had not a building left standing after the Germans were routed, today possesses ten of these minute bungalows, with six more in process of erection.

The Quakers are the foremost of several societies engaged in assisting the former population to return to the land. The Society of Friends in England and America have raised \$200,000 by voluntary subscription, and are constructing these one- and two-room houses, depending on the size of the family, for sums ranging from \$4 to \$11 apiece.

At present, there are about 130 workers aiding the government in the work of restoration. The departmental authorities supply the lumber, while volunteer artisans of the society, aided by soldiers who in civil life are carpenters and joiners, detailed by the ministry of war for this work, do the building. Two hundred of these houses, accommodating more than eight hundred persons, have already been completed while 129 are under construction.

In many instances furniture is supplied by the society, the French government defraying half the expense. In the majority of cases the Fireside Comfort Society, whose sole aim is the distribution of furniture among the needy, supplies the simple necessities. The tenants pay no rent, but agree to a certain percentage of their eventual war indemnity, being withheld by the government. Besides building new houses, many others which were only partially destroyed have been repaired.

The Friends conduct many other forms of relief. At Chateaufort a maternity hospital was established. It is now used for all civilian cases, many injured during the bombardments of Rheims and Pont-a-Mousson being treated at Bethancourt.

A convalescent home beyond the sound of cannon, insures speedy recovery under more favorable surroundings. In several localities open air schools

are conducted; at Hueve a modern schoolhouse has been erected.

Garden tools, quantities of vegetable and flower seeds, as well as poultry and rabbits, have been supplied the small agriculturalists. Through the aid of the American Clearing House five reaping and binding machines were sent with the twenty received from England to those Communies in greatest need. Many machines which were greatly damaged by fire and bombardment, have been repaired.

In addition to those specific branches of relief, Quakers travel from place to place behind the lines, distributing food, clothing and other similar necessities to non-combatants.

HUNDRED FIFTY THOUSAND POORLY ADDRESSED LETTERS RECEIVED IN ONE DAY

(By Associated Press.)

Cologne, Germany, Oct. 13.—Hendrich Lintz, one of the assistants in the Cologne postoffice, has been compiling statistics which show that 150,000 poorly addressed letters and packages were received there in a single day. It was possible eventually to correct and send on their way a greater part of this number, but a large balance had to be returned to the senders for readdressing.

His examination revealed the fact that it is not alone the puzzling letters, but that hundreds, if not thousands of persons, make grotesque mistakes in their native German. Following are a few choice examples:

Alarmierungsbatallion (Alarmierung B—)

Kolonien Kolonie (Communism colony) for Munitionskolonie (Ammunition column.)

Zeugenlazzaret Sedan (Witness hospital) for Seuchenlazzarette Sedan (Contagious hospital.)

15 Konserven Division (16th Preservers Division) for 1 Reserve Division.

are conducted; at Hueve a modern schoolhouse has been erected.

KEEP AWAY THOSE GRAY HAIRS WITH SAGE TEA

With Sulphur, It Restores Natural Dark Shade. Guaranteed.

Sage Tea, combined with Sulphur, has been the favorite remedy for generations for darkening gray hair. Instead of trying to make the mixture yourself, simply buy a bottle of Sulphur Sage Tea. Druggists say it contains all of the virtues of the good old-fashioned preparation plus other valuable ingredients.

No matter how long you have been gray, Sulphur Sage will bring back the rich, dark shade evenly and perfectly, leaving it glossy, lustrous and youthful looking. Entirely unlike dyes, no one will know you are using Sulphur Sage. It removes dandruff and keeps new gray hairs from showing.

## BIG BREWERS URGE REFORM IN LIQUOR TRADE IN SALOONS

Seek to Correct the Saloon to Stem Tide of the Prohibition Forces.

(SPECIAL TO THIS GAZETTE)

Springfield, Mass., Oct. 4.—The United States Brewers' association, whose members are said to produce over seventy-five per cent of the malt liquors in the United States, began its fifty-fifth annual convention here today.

President Edward A. Schmidt in his address declared that the brewers, as well as outside reformers, were striving to correct the evils of the saloon, and intimated that some radical reforms might be expected.

He said, in part: "For many years the educational work of our association was hampered by the lack of a constructive policy, which, however, was impossible until practically all our own people had reached the point of conviction in regard to the necessity of saloon reform and of rigid law observance."

**Licensing System.**  
"We have at last come to fairly general agreement as to what constitutes a good licensing system, and certain definite principles which should govern the conduct of the retail trade. Of course, the local application of these principles involves many perplexing and complex problems, which will take time to work out, and will undoubtedly involve some serious sacrifices."

"In this connection I want to speak your active interest and cooperation in the work of the co-operative committee of the licensed trade engaged in the manufacture and sale of alcoholic liquors, which is endeavoring to build up the local retail organizations, so that every reputable man in the saloon trade may be enrolled as a member of his local organization. One of the main objects of this movement is to bring the reputable men in the retail business together, so that their opinions may be made potent in correcting any of the abuses that have crept into the business."

"The co-operative committee, representing the national organizations of the brewers, the wholesalers and the retailers, have agreed that licenses should be issued to a normal demand for them, and that the artificial stimulation of business by any branch of the trade is undesirable. The committee also advocates the suppression of any connection of any licensed premises with any disorderly house or gambling establishment, and to use every effort to refuse to issue 'speakeasies' or other illicit vendors."

**Family Resorts.**  
"Perhaps the most important and far-reaching suggestions made by the co-operative committee is that the trade should encourage the establishment of public family resorts in which all kinds of refreshments shall be served, and in which the sale of alcoholic beverages shall be no more emphasized than any other beverages, conforming to the type of continental hotel and restaurant, familiar to the American traveler. In the French restaurant or the German beer garden, one sees whole families sitting together at a table, sipping their beer, their diluted wine or their coffee, enjoying good music, eating their simple fare and talking together in peace and harmony."

"In England a body of men have organized what is known as the Public House Trust, which is dealing with the temperance and licensing problems upon common sense business lines. Their standpoint is that the licensed house is a practical necessity, and that it ought always to be a place where all classes, and all the people can resort without reproach. This organization has secured the control of some 400 licensed houses, where during the past ten years it has been computed that more than 11,000,000 persons have been served and not a single prosecution for drunkenness or any other evil has resulted."

"I appeal to you," said the president in closing, "to make it your personal business to see that such reforms are undertaken and carried out, and to accept willingly your own share in the loss that these reforms may, and will necessarily involve—temporary though they may be—both because in the long run they will insure to you benefit, and most of all because, they are putting the industry on all fours with the welfare of the community."

**Effect of War.**  
The views of the United States Brewers' association on the extra war tax were set forth in the reports of the trustees before today's session of the convention of that association here. The report points out that while the brewers have been heavy losers on account of war conditions and because of the constant menace to its business, it also bears the heaviest burden of war taxation, while other industries, that grow fat on war contracts, escape entirely."

"Beer has been compelled to bear a taxation out of all proportion to its relation to industry, says the report. The increased beer tax of 50 cents per barrel (making the present tax \$3.50 per barrel), will expire by the next year, but the brewers submitted to it with the feeling that there was an urgent need for it. The burden is, however, a grievous one, particularly in these hard times, and there should be no renewal of the extra tax until the government has exhausted other means of obtaining the additional revenue. It would seem most fitting that the heaviest burden of taxation should be borne by those who are making millions out of the war—the arms and munitions manufacturers, the steel industry and the automobile manufacturers—rather than by those whose business has suffered through the war."

**Yields Big Revenue.**  
"When it is recalled that the tax on alcoholic beverages has yielded three billion dollars to the federal government since the year 1900, that the annual liquor tax is more than enough to pay for the maintenance of our army and navy, and amounts to nearly half the entire revenue of the federal government, it will be seen that the matter is one of supreme national importance. The question is one of alternatives, which must be taken into consideration whenever national prohibition is seriously discussed. On whom, then, could the added burden fall? It is possible the burden might be found by a huge reduction in the public service. For example, we up of 40,000 men in the public service, and if we could reduce that number to 20,000, we could save \$1,000,000,000 a year. If we could reduce that number to 10,000, we could save \$2,000,000,000 a year. If we could reduce that number to 5,000, we could save \$3,000,000,000 a year. If we could reduce that number to 2,500, we could save \$4,000,000,000 a year. If we could reduce that number to 1,250, we could save \$5,000,000,000 a year. If we could reduce that number to 625, we could save \$6,000,000,000 a year. If we could reduce that number to 312, we could save \$7,000,000,000 a year. If we could reduce that number to 156, we could save \$8,000,000,000 a year. If we could reduce that number to 78, we could save \$9,000,000,000 a year. If we could reduce that number to 39, we could save \$10,000,000,000 a year. If we could reduce that number to 19, we could save \$11,000,000,000 a year. If we could reduce that number to 9, we could save \$12,000,000,000 a year. If we could reduce that number to 4, we could save \$13,000,000,000 a year. If we could reduce that number to 2, we could save \$14,000,000,000 a year. If we could reduce that number to 1, we could save \$15,000,000,000 a year. If we could reduce that number to 0, we could save \$16,000,000,000 a year. If we could reduce that number to -1, we could save \$17,000,000,000 a year. If we could reduce that number to -2, we could save \$18,000,000,000 a year. If we could reduce that number to -3, we could save \$19,000,000,000 a year. If we could reduce that number to -4, we could save \$20,000,000,000 a year. If we could reduce that number to -5, we could save \$21,000,000,000 a year. If we could reduce that number to -6, we could save \$22,000,000,000 a year. If we could reduce that number to -7, we could save \$23,000,000,000 a year. Gazette Advertising brings the crowds to

## AUCTION SALE!

Compare the attendance of auction sales that are advertised in the columns of the Janesville Gazette and those which are not.

The comparison is very conspicuously in favor of the value of advertising your sale through the newspaper.

The reason is that the public prefers to read of these sales at home where the entire contents can be thoroughly digested and considered. The 7,500 homes reached by the Gazette make possible a wider radius from which customers can be drawn.

Backing up your bills with two or more advertisements in the Gazette is a wise expenditure of money. It has been demonstrated this season that money saved in this way was lost a hundred fold at the sale.

If you are interested in or contemplating an auction sale, send to the Janesville Gazette for the booklet entitled, "Auctions, and how to prepare for them." It's free. The Gazette's auction directory is also free to our subscribers.

## AUCTION DIRECTORY.

The Gazette will publish free of charge in this column the dates of auctions scheduled for the near future. Auctioneers and owners are requested to mail their dates to the Auction department, 1000-1001, Nov. 18.—John Wright, Milton. W. T. Dooley, auctioneer.

Oct. 18.—Fred M. Gray, Milton Jct. R. F. D. 13. W. T. Dooley, auctioneer.

Oct. 19.—D. J. Morris, Clinton. R. F. D. 13. W. T. Dooley, auctioneer.
